I was marginally involved, meaning I only provided some comments. Karen Schwinn in R9 was the lead. Tom Hagler from the regional counsel's office was also a major contributor.

Since the BDCP is an ESA document, I am not sure it will be directly incorporated into the BDCP, pretty sure it won't. It is outside of the BDCP and part of our ongoing relationship with CA in terms of the water quality/CWA programs.

I can help set up a phone briefing if you like.

Thanks

Roger

Subject: EPA report on Sacramento-San Joaquin Delta Estuary

Roger – were you involved in the development and review of the August 2012 report on the Sacramento-San Joaquin Delta Ecosystem? Might you know who worked on it at EPA? I am interested in getting at least a telephone briefing on it as it is becoming a focal point of discussion for how/if/when it will be integrated into the BDCP process.

Thanks. D
